The vote was taken upon the motion to recommit, which was carried.

The Rev. Dr. Viston, of Mass., on the part of the Committee of Conference, made a report upon the subject of "An Abandonment of the Commanion of the Church." He said the committee had enjoyed an interview with the House of Bishops, and they had made compromise upon canon let of 1853 upon "the Abandonment of the Church." by proposing a canon, which was read, and which in substance is about the same as the one originally passed, with the exception that all is stricken out in regard to bishops, making the canon apply only to presbyters and deacon, abandoning the communion of the church. The canon was adopted.

The Rev. Dr. Ms. at then read resolutions of thanks to the Rev. Dr. Howe, Secretary of the Convention; to Rev. Dr. Howe, Secretary of the Convention; to Rev. The Convention assembled at 6 o'clock in the evening, and proceeded to business.

The canon reported from the House of Bishops, entitled "Lay Readers," was first taken up.

A message was then received from the House of Bishops, as follows —

Resolved, That the House of Clerical and Lay Deputies be informed that the House of Bishops concur in the canon "on the abandonment of the communion of this church by a presbyter or deacon," transmitted to them by that body.

Resolved, That the House of Clerical and Lay Deputies be informed that the House of Bishops non-concur in the canon transmitted to them by that body, and entitled "on the ministry abandoning the communion of this church."

A motion was made to non-concur in the resolutions contained in the message from the House of Bishops, which was carried.

The Rev. Dr. Unnox moved the appointment of a Committee of Conference, to confer with the House of Bishops in regard to the above canon in which they non-concur. Some debate arose upon this motion. Soveral claimed that it was unconstitutional; that the bishops had a right to refure their assent to a resolution; and when they did so, then the legislation upon the rejected canon ended. Dr. Visynox of Massachusetts, insisted that the House had a right to resort to such a committee.

The vote was then taken, and the motion to appoint a Committee of Conference was lost.

The Rev. Dr. Van Isom, of Western New York, said the delegation from the diocess of Toronte took leave to-night, and he hoped their voice might be heard before they departed.

In obedience to this request this delegation expressed their pleasure and satisfaction for their visit to the Convention. They were rejoiced that the churches of the

Another message was then received from the House of Bishops, expressing their concurrence in the resolution passed by the Convention, establishing a fund for the relief of aged and infirm clergymen and the widows and orphans of deceased ministers.

A resolution was then offered expressive of the fervent gratitude of the Convention. Boon after the meeting of the Convention.

The Rev. Pr. Porust begged leave to relate an incident in connection with this resolution. Soon after the meeting of the Convention, amenber who had said but little asked leave of absence; and why? His substitute at home had been stricken down by a devastating plaque—the yellow fever. He died at his post. This member manfully stood up and asked leave te go home to face this plaque, this fever and death and among these dangers to preach. This leave was granted. I could not but admire this act of heroism. It was a noble act; and I said to myself we shall act harmoniously.

The resolution was then unanimously adopted.

A message was then received from the House of Bishops announcing that they had a

The following gentlemen were then elected Trustees of the Missionary Fund—Messrs. R. B. Minturn and Cyrus Curtis, of New York, Horace Wright, of Syracuse, S. Huntington, of Hartford, and Herman Cape, of Philadelphia.

A message announced the non-concurrence of the Bishops on the sanon, "On new diocesses."

It being now half-past 9 o'clock, and as a resolution of the previous day said that the Convention should stand adjourned at 9 o'clock, te avoid a dissolution, the following resolution was then offered—

Pascored, That (the House of Bishops concurring) it is not, and cannot be, 9 o'clock till this Convention adjourner. This was received with laughter, but was not acted upon.

A message from the House of Bishops, expressed their adherence to their non-concurrence in the canon "on the election and institution of ministers."

Br. Virrox, of New York, maved the appointment of another Committee of Conference, and hoped they would continue to appoint such committees till this canon was passed by the bishops, if the contest lasted till 12 o'clock at night. It was a most important matter; the canon had been passed almost unanimously by the Convention, and eight to be concurred in.

This motion of Dr. Vinton's was carried, and Drs. Haskell, Craix, and Andrews, and Judge Ruifan, and Mr. Huntingden were appointed the Committee of Conference. The following nessage was received from the House of Bishops respectfully in

The following message was received from the House of Bishop:

Recolved, That the House of Bishops respectfully informs the House of Clerical and Lay Deputies, that a committee of conference cannot be entertained at this late beaut, and that a safer course in such an important matter as that in question, would be to refer it to the next general Convention.

The Rev. Br. Mano said that inasmuch as the House of Bishops white more time to recommittee of two be appointed to recomsider the motion previously passed, to adjourn at \$6 clock, and moved a committee of two be appointed to request the House of Bishops to rescind the same motion of adjournment passed by them.

This motion excited some cebate. Some gentlemen koped ine Convention would not act in this rash manner. There was nothing to take offence at in the course of the Bishops.

There was nothing to take offence at in the course of the Rianops.

Others centended that the Convention had a right to take the course.

The metien was carried, and a committee of two appointed to convey this action to the Bishops.

The Bishops then sent in a message, concurring in resolution of the Convention reseinding the motion to adjourn at nine o'clock; and they appointed to meet again at nine o'clock this morning.

a machinist by trades, and work at the Jamaica epot; I am foreman of the establishment; I have known James Duffy, the prisoner, for the last seventeen months; Duffy has been as far as I know, an honest, upright man; I work in the same shop with him, and see him almost every hour in the day; I see him sometimes when he is away from his work; I never heard anything against him, until this charge; I recollect seeing a person come to the shop, and inquire for Duffy; I don't know his name; he was inquiring about this girl that was murdered; he said she was his niece; he saw Duffy, and to the inquiry I think Duffy said he knew such a girl; Duffy asked the man if she was James Morrison's wife's sister; the person said no, and Duffy replied that he did not know her; there was more conversation between them but I did not hear it; the person speaking appeared to be excited; when he first came into the shop I thought he was intoxicated, and I called to him to know what he wanted; he replied that he wanted to know if one James Duffy worked there; I told him he did; subsequently I saw that this man was not excited by liquor, but evidently by some other cause; I am not sure of the time of day this person called, but it was during working hours.

James A. McFarland, sworn, says—I reside in Jamaica; I know James Duffy, the prisoner, about a year and a laft; I am a machinist, and work at the depot; Duffy's character is good, and I consider it as unexceptionable as any man of my acquaintance.

Disasters.

Shur Westhen World, ashore at Squan beach, it is stated, had a pilot en board, but he was not in charge when the vessel went ashore, the captain having declined to pay the off shore pilotage. A letter received in the city yesterday states that the ship isy in the same position as she was when she went ashore. The heavy easterly blow of Monday doing a serious injury. As there appears to be some discrepancy in regard to the steam tug that first boarded the ship, we are authorized to state that the Levinthan, Captain Hazard, reached the week at 4 e clock on Saturday, and took off upwards of five hundred passengers, and landed them all in the city before any other boat reached the wreck. The Leviathan is probably the most powerful tog boat in the world. She is built entirely sold, and strapped with iron braces; and it is said can run twenty miles within the hour.

Ship John Merrick, at Philadelphia 24th from Liverpool, on 16th ult experienced a heavy gale; lost sails, foretop-gallant mast, foretopmast and jibboom. The brig and brigantine had flags of distress also flying. The Falmetto could not make out the names of either of the vessels. Captain Vardy, of the Palmetto, says that he never was in such gales in his life as he experienced during this passage, and that several vessels that he spoke were either dismasted, or suffered damage of some description.

Schr Julia Eina, Thompson, of Philadelphia, from Wilmington for the West Indies, struck on a reef off West Calcos Island, night of Sept. 21, commonly called Burche's Lock Out Reed, and afterwards went to pieces. She was going at the speed of eight knots per hour when she
